MA English Language Instructor Thesis Defense and Group Profile Presentation

Dear Students,

As you near the end of your studies, we would like to inform you of the protocol for your thesis defense and oral examination.

The thesis defense and oral examination will take approximately 20 minutes: 10 minutes for your thesis defense and 10 minutes for your oral examination. During your thesis defense, candidates should briefly summarize their research, results, and course design, including reflecting on the process. If there were any questions posed to you on your thesis evaluation sheet, those should be addressed during this time as well.

The oral examination consists of presenting on one of three group profiles, which will be sent to candidates 72 hours before their final examination via the email provided in the Neptun account. Each group profile contains detailed information regarding population, age, proficiency level, background, and further considerations. Candidates may choose the group profile they would like to present. Candidates will then have 10 minutes to present their considerations for planning for the selected group. Special attention should be paid to the specific areas that must be addressed when discussing the chosen group. Once the candidate has given their presentation, the panel may ask further questions to clarify or attain answers to unaddressed topics. This presentation is the candidate's opportunity to demonstrate to the panel the knowledge they have acquired regarding English language instruction and how they would apply these practices in the classroom. Candidates may prepare a PPT; however, it is not required. If you choose to do so, please upload the presentation on a pen drive in the interest of time.

Please contact the program director or your supervisor if you have any further questions.

All the best,

The EASI Teacher Education Team.
